Snorkeling Assessments and New Discoveries

Informational Meeting for Potential Leaders

Keaholoa STEM Scholars Room: **PB-13-2**

October 12th, 2015, 5:30 pm

Contact: Keo Lopes, khlopes@hawaii.edu

Sandhawaii.org

Volunteers Needed: $500 Stipend Paid on June 13 at the end of SAND Camp. CPR/FA and a fun and energetic personality. Strong water skills. Able to lead lectures, and teach students the basic principles covered in SAND.

Snorkeling Assessements and New Discoveries (SAND) is a program developed to spark an interest in the sciences for local students. The 10 day field camp utilizes Hawaii Islands' exceptional marine environment to achieve that goal. The camp focuses on teaching the students underwater survey techniques, underwater photography, GPS use, GIS, data entry, and general marine biology. The camp will be held in West Hawaii on June 2nd through June 11th, 2016.

Positions Needed: **Six (6)** total volunteers needed

Lead Logistics (1): Will work directly under Keo Lopes and Makani Grigg to help insure benchmarks are met prior to the camp. Assist in logistical support during the camp. Experience in youth programs and marine environments is a strong preference. Own Car is a strong plus. Millage will be added to the stipend.

Group Leaders (5): Guide and mentor a group of students (2-3) throughout the 10 day program. Experience with working with youth groups preferred and QUEST experience (attended or will attend in 2016) is strongly desired.

Duties Include:

Webpage and Social Media updates (Enter key dates, videos, links and photos).

Review and adjust curriculum (basic foundation and educational targets are set).

Take inventory of gear and supplies.

Hardware and Software Updates and checks.

June 1-13, 2016. Assist in setting up camp and execution objectives during the 10 day camp.
